

# ELEMENTAL ADVENTURE OPERATED TRIPS

2025 / 2026

For next winter, we have put together our largest selection of EA operated trips to date. These are skiing adventures that we design and deliver ourselves and schedule on the optimal dates – the trips that many of us dream of doing, but often prove impossible to arrange. They are bookable individually or exclusively by larger groups.

We go to the best places, bring in the best guides and enlist the help of the best support crews to give you the highest possible chance of success in the planet's most epic locations to ski.
